79. The climbing area visitor is obliged:

1) to visit the climbing wall only with the use of fully functional climbing equipment (belay device, harness, ropes, carabiners, guy wires and other equipment) that meets the necessary safety requirements (GOST, UIAA, CE) and is used in accordance with the instructions of the manufacturers. A coach (coach-teacher, instructor, rescuer) or administrator has the right to prevent the use of unsuitable for insurance equipment at the climbing wall. When the Client uses his own safety equipment, the administration is not responsible for the possible consequences of its use;

2) to be at the climbing wall only in the presence of a coach (coach-teacher, instructor, lifeguard);

3) before climbing, to inspect the used equipment for damage conditions;

4) to enter the territory of the gym, where the climbing wall is located only in changeable shoes.

80. For clients of the climbing area, it is prohibited:

1) to enter the climbing area with backpacks, bags, outerwear;

2) bring food to the territory of the climbing area;

3) to be on mats under climbing walls, thereby preventing other clients from practicing and creating an additional threat of harm to their own health and the health of others;

4) to be under each other while climbing;

5) to grab and step on the safety lugs;

6) to climb behind the climbing wall structure;

7) to change the configuration of tracks (hooks) and safety equipment;

8) to climb with rings on fingers and other jewelry that could get caught on the elements of the climbing wall, equipment, or create prerequisites for an accident, cause injury to the Client or others;

9) to climb or ensure safety with long, flowing hair;

10) to climb with equipment and other things that could fall down when climbing a wall;

11) to be distracted in any way when belayering in any type;

12) to climb without shoes or in non-athletic (non-sport) shoes;

13) to distract the belayer or interfere with the actions of the belayer;

14) to leave objects on the surface of the safety mat;

15) to eat, make a mess, climb with chewing gum;

16) it is not recommended to jump off the slopes onto the safety mat.

81. When climbing with "top" belay:

1) the implementation of the "top" belay and climbing with the "top" belay should be carried out exclusively with the appropriate skills, after passing the training and working out the acquired knowledge under the supervision of competent persons. Responsibility for obtaining, possession and correct application of these skills lies with the Client;

2) as a safety device, it is allowed to use a semi-automatic device of the "Gri-Gri" type or devices of the "glass" type ("basket", ATC, Reverso, etc.). The use of devices of a different design is unacceptable;

3) it is allowed to use only the “figure eight” knot with the control knot as a safety knot. A stopper knot must be tied at the other end of the rope. Be sure to clutch the used carbines;

4) the belaying device of the belayer must be fastened into the central loop of the belay system with one carbine with a wrapped clutch;

5) the climber and the Client who insures the climber are obliged to mutually monitor the correct implementation of the insurance, to prevent sagging, twisting of the rope, clinging of the rope to the structure of the climbing wall, hooks or other structural elements. The client can start climbing only after receiving confirmation from the belayer that the insurance is ready.

82. When climbing with "bottom" belay:

1) climbing with bottom belay on the climbing wall is allowed only for an experienced Client or as part of training and practicing the acquired knowledge under the supervision of a climbing coach (coach-teacher, instructor, rescuer). Responsibility for obtaining, possession and correct application of these skills lies with the Client;

2) it is forbidden to use a static rope for the lower belay.

83. When climbing with "automatic" belay:

1) when connecting to the "automatic belay", it is necessary to firmly hold the carabiner in order to avoid self-winding of the safety line;

2) after clipping the carbines, it is necessary to clutch them (in the case of carbines with a threaded coupling) and straighten the safety sling;

3) it is prohibited to independently click on the automatic insurance by users under the age of ten;

4) Clients under the age of eighteen years are required to perform clipping in the presence of an instructor, coach (coach-teacher, instructor, rescuer);

5) it is prohibited to climb on or above the level of the "automatic belay" attachment;

6) in order to avoid the effect of a pendulum, it is forbidden to deviate from the track line while driving along the wall.

After training, the user is obliged to secure the safety line in the designated place.

11. Playing and multifunctional halls, martial art area, yoga room, squash room, dancing (Cheerleading) and gymnastics areas, fencing area, outdoor sport fields

84. Playing and multifunctional halls, martial art area, yoga room, squash room, dancing (Cheerleading) and gymnastics areas, fencing area, outdoor sport fields are places on the territory of the Sports Complex to conduct group sport and health recreational activities by type and corresponding programs.
